## Projects

### In the Dark | React.js, AFrame.js, Parallax.js, Web VR

Web technologies spun into a unique, thrilling browser adventure.

[@royhhwang.github.io/inthedark](https://royhhwang.github.io/inthedark) | [@github.com/royhhwang/inthedark](https://github.com/royhhwang/inthedark)

- Pure CSS to create unnerving animations.
- Adds atmosphere using a faded flashlight effect.
- Mouse tracking React components.
- Web VR experience created through AFrame.js.
- Parallax.js adds to the horror tone by having elements track the user.
- Combined with IGDB API's full game database.

### Coding with Corgis | Unity 3D, React, MERN Stack, HTML5, CSS3

Gamifying the interview process to help job seekers find employment.

[@codewithcorgis.com](https://codewithcorgis.com) | [@github.com/royhhwang/CodeWithCorgis](https://github.com/royhhwang/CodeWithCorgis)

- Players solve complex brain teasers designed to promote and challenge creative thinking.
- Player's score integrates with Comparably.com's business API to provide job listings based on their performance.
- Took role of project developer and team coordination.

### Usagi Warrior | Unity 3D, 3DS Max, C#

3D platformer that challenging user's skill and aptitude through gameplay.

[@royhhwang.itch.io/usagi-warrior](https://royhhwang.itch.io/usagi-warrior) |

[@github.com/royhhwang/Project3-RPG](https://github.com/royhhwang/Project3-RPG)

- Scripted in UnityScript and C#, models designed in 3DS Max.
- Custom battle sequencing for makeshift AI and tracking.
- Fluid transitions between platforming and combat.

## Past Experience

### Wismettac Asian Foods | Wholesale & Distribution Sales

Associate

Aug 2015 – May 2017 • Santa Fe Springs, California
